Company profile

- Radioelectronic industry
- Instrument-making industry
- Communications and informatics industry
- Energy and photovoltaics
- Medicine, biology, pharmaceuticals
- Science and education
- Rocket-space and aviation industry
- Atomic industry

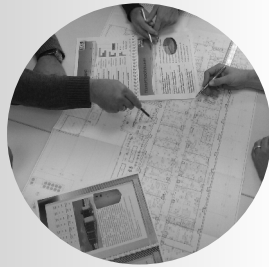

230 Contracts,
130 Customers,
Gross Floor Area -
more than 1 100 000 m²

SKTO PROMPROEKT - your reliable partner at all stages of design of new construction / reconstruction: from project concept to the installation of complex engineering systems. Ability state approval & expertise for construction.

Welcome to SKTO technology

For 20 years, "SKTO PROMPROEKT" has been rendering services in design, reconstruction and technical re-equipment of enterprises and research centers of microelectronics, photonics, photovoltaics, micromechanics, microfluidics, computer science, materials science and instrument making, with "clean rooms" classes 4/5/6/7/8/9 ISO and A/B/C/D GMP

We perform installation of engineering stations and systems

Supply and installation of clean room structures

We perform connection and installation of equipment

We organize personnel training, provide customer service

Approval documentation

State Expertise, State Technical Supervision, Sanitary and Epidemiological Service, Ministry of Emergency Situations, local authorities. We work according to Russian laws.

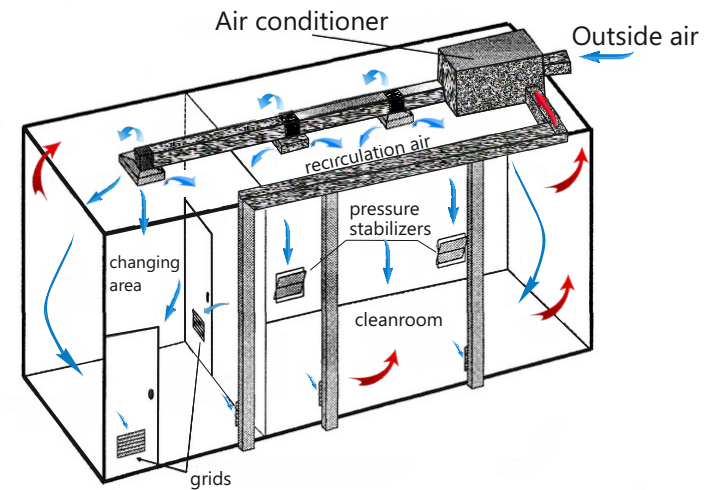

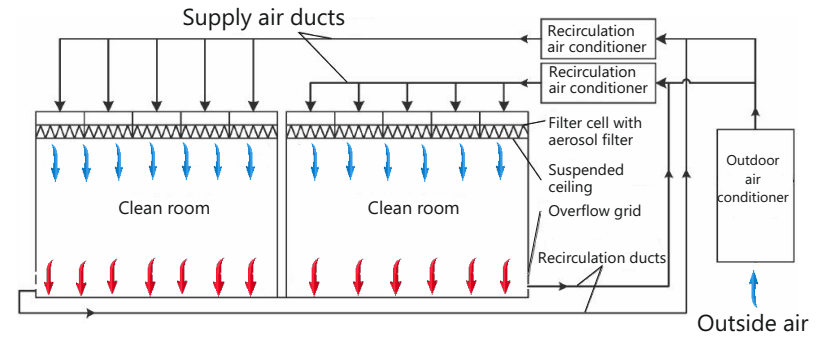

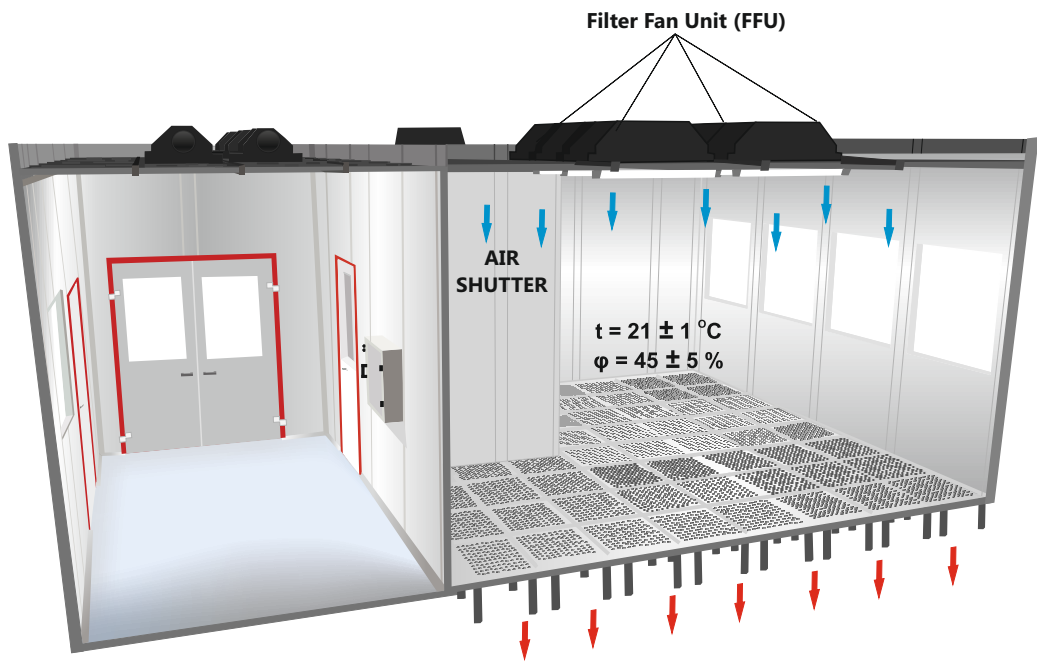

Open offices for R&D

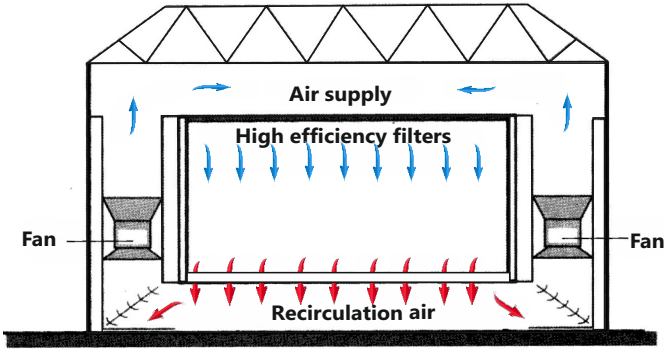

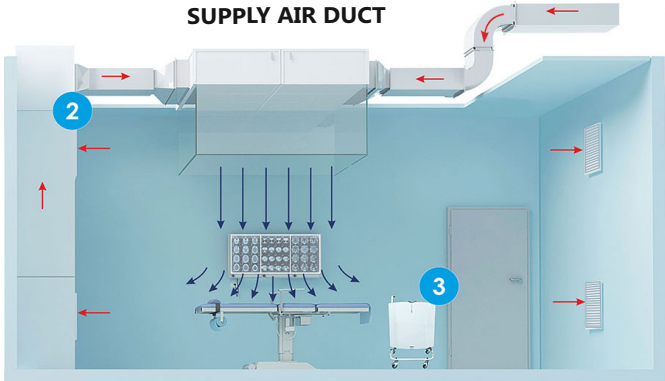

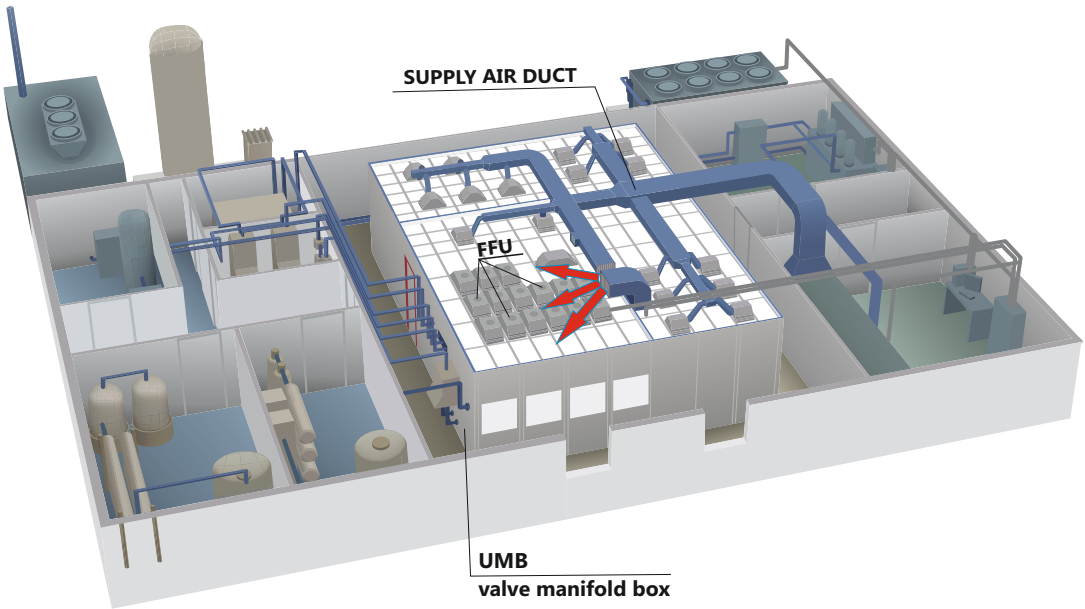

Open offices for R&D

Clean rooms technologies

Advanced technology facilities for DC & Lab

Our partners

& 130 Customers in 20 years

Advantages of cooperation with SKTO PROMPROJECT:

We are able to solve the entire list of tasks related to the creation, modernization and re-equipment of production and research centers of microelectronics, pharmaceutical and medical industries, including the design, construction and equipping with engineering infrastructure of "clean" production facilities of various purity classes. We provide transfer of modern technologies and supply of equipment without intermediaries, from the direct owner of a particular technology or manufacturer.

WE ARE ALWAYS READY TO:

- Visit your site
- Invite you to our office
- Send you additional information
